EXPERIENCE

Marketing Project Coordinator — Fhenix (FHE LABS) [2/24 → 3/26]

- Introduced GANTT tooling to manage marketing campaigns & events
- Hosted conferences worldwide with 2,000+ registrants per event, raising \$10,000+ in sponsorships per event; additionally organized smaller-scale activations
- Built the company's email newsletter from 0 to 10,000+ subscribers, owning the release, design, and editorial direction
- Selected and sponsored high-value conferences and hackathons for brand presence, managing budget allocation for each. Coordinated team travel logistics
- Designed and managed on-site booths, sourced merchandise, and led on-site communications

Site Director, Cybersecurity Camp — West Valley College & Bay Area Cyber League [5/23 → now]

- Organized and operated CyberCamps at West Valley College, from its first year - a month-long Cybersecurity summer program for high schoolers funded by grants from the National Science Foundation / NSF, now in its 4th year
- Managed a team of teaching assistants, initiated cross-department meetings, and presented our results to parents & stakeholders

Product & Growth Consultant — Keyrun Inc (melee.gg), Cora Protocol [2022 → 2024]

- Advised on UX for Melee.gg, a tournament management platform used by Hasbro for official Magic: The Gathering events, identifying WCAG accessibility gaps and improving event-day product clarity
- Led community engagement initiatives and outreach to VCs, influencers / KOLs, and external partners for a DeFi lending primitive pre-launch
- Created content and messaging to build early community trust ahead of product launch

Community Lead — Dystopia Labs [12/21 → 9/22]

- Organized 10+ IRL & virtual hackathons, conferences, meetups, & VIP Dinners in a year - officially recognized by the Ethereum Foundation. Full lifecycle from budget to execution
- Owned record management, budgets, and allocations across concurrent events
- Led communications and stakeholder coordination, and on-site attendee support
- Selected venues, coordinated travel, social/dinner logistics, and keynote speaker management

EDUCATION & CERTIFICATIONS

B.S. Cognitive Science, Design & Interaction — UC San Diego [2019 → 2021]

- Prototyping, Data Science in Practice, Modeling & Data Analysis, Engineering Psychology, Managing Diverse Teams, Teaching Computational Thinking

Software Development — Colorado Technical University [2022-2023]

- Attended a 14 week program to accelerate my skills in various frameworks & technology stacks
